SKILLS

Python | JavaScript | DOM Manipulation | HTML | CSS | Canva | PhotoShop | Figma | Github | React | Bootstrap

Passionate about intuitive User Interface(UI) and collaborative teamwork, I am an experienced healthcare professional transitioning into the dynamic field of **Front-End Web Development**. Proficient in **Python, JavaScript, DOM Manipulation, HTML, CSS**, and skilled in utilizing tools such as **Canva, Photoshop, and Figma**. Dedicated to delivering exceptional **UI/UX** experiences with clean, sustainable code. Leveraging frameworks like **React** and **Bootstrap**, I am committed to creating intuitive and visually appealing web solutions.

SOFTWARE ENGINEERING APPLICATIONS

Word Games | [Github Repo](#) | [Live Site!](#)

E2E development and design of a site to find various word games

JavaScript | HTML | CSS | DOM Manipulation | Git | Figma | React | Bootstrap

- Co-led the design and development of a responsive website with intuitive UI/UX
- Collaborating closely with a skilled colleague throughout the entire project lifecycle

Portfolio | [Github Repo](#) | [Live Site!](#)

E2E development and design of a site to find various word games

JavaScript | HTML | CSS | DOM Manipulation | Github | VSCode | Source Control | Figma

- Dynamic web application using **Vanilla JavaScript**, implementing modern **CSS** and **HTML** to create **UI/UX**
- **Designed** well-structured layout and visually appealing components to display my projects

Taylor Swift Fan Site | [Github Repo](#) | [LiveSite!](#)

Crafted a dynamic website catering to Taylor Swift enthusiasts, enabling them to delve into in-depth analysis of their beloved songs

JavaScript | HTML | CSS | DOM Manipulation | Github | Algorithmic Logic

- Used `localStorage`
 - Used DOM manipulation to change HTML elements
 - Utilized REST API to efficiently retrieve and present data, providing users with an engaging experience.
-

SOFTWARE ENGINEERING

UnderDogDevs | April 2021 - November 2022 (Student) | November 2022 - Present (Internship)

intensive software engineering bootcamp at UnderDogDevs, gaining extensive knowledge and hands-on experience in **JavaScript, HTML, CSS, DOM manipulation**. Engaged in 1:1 mentoring, hosting study groups and collaborated on group projects to enhance skills and foster a strong foundation in **debugging** and **web development** using **React** and **Bootstrap**

Self-Study Projects | January 2021 - Present

Demonstrated exceptional **self-motivation** and **time management** skills by organizing study schedules and consistently achieving personal learning goals. Driven by a strong passion for continuous growth and development in the field of **web development**, maintaining a proactive approach to acquiring new skills and staying updated with industry

PREVIOUS CAREER EXPERIENCE
